

HIGH-VIS LIGHTED SAFETY ARMBAND

SA300

LED LIGHTED | DUAL MODE | RECHARGEABLE

Wear super-versatile, rechargeable safety lights on your body wherever you work or play. The COAST SA300 High-Vis Lighted Safety Armband shines high-vis safety orange light in two modes—solid and flashing—to increase your safety in dark and chaotic environments. On a single charge, the light can run for up to 10 hours on solid mode and 12 hours on flashing mode, and recharging is easy with the included charging cable. Designed with an adjustable strap and hook system for no-pinch comfort, the armband is constructed with flexible straps so that you can place light right where you need it—on the upper arm or wrist or even around your knee or ankle. The armbands are made from water-resistant material to ensure a long life, and the LED light can be removed when the band needs washing.

MICRO-USB CHARGING PORT

RECHARGEABLE BATTERY INCLUDED
